ABOUT ME

Passionate web developer with a strong background in **HTML, CSS,** and **JavaScript**. Proven ability to create visually appealing and responsive websites that are optimized for both mobile and desktop devices with an emphasis on creating user-centered designs.

EDUCATION

Parul University - Vadodara	Vidhyadhish Vidhyasankul - Bhavnagar	Sarasawati Vidhyalaya - Rajula
B.Tech CSE	Higher Secondary Education	Secondary Education
2018 - 2022	2016 - 2018	2016
7.53 / 10 GPA	59.4 %	74.8 %

PROJECTS

Starbucks Rewards Site   Preview

The "Starbucks rewards site" is a similar in looks to the original Starbucks reward site. which I tried to match the similarities between them with my skills. this was a best project to work on my CSS and flexbox knowledge, and little bit of help from JS for DOM manipulation.

Weather on Web   Preview

The "Weather on Web" site will provide temperature, humidity and wind details with the weather description for more than 200K cities across the world. To learn about the APIs and their working it was the best project.

Game : Tic Tac Toe   Preview

The "Game : Tic Tac Toe" is a player vs computer game with only one round between them. Array methods and CSS pseudo classes were used in this project. Responsive design makes it more useable on handsets.

Code Contributor   Preview

A Website to help open source project contributing community with easy searching features. Searching will be easy with more than two languages, tags and based on the errors in the project. Highlighting the projects that need immediate attention from the core contributors.

My **experience** with front-end projects from different platforms has taught me valuable lessons about development and collaboration. I have gained insights into the strengths and weaknesses of various platforms, and developed best practices for effective front-end development.
